

Phase-7 Sweep Session — All CMD Commands

Grok session 7-8 September 2026 | Commits: 22afea2, 029c510, 4d56f2a, e528475, c3b0d43, c56f969
Working directory: D:\phase7_engine

1. Baseline

```
1. cd /d D:\phase7_engine
2. git status --short
3. git log -1 --oneline
4. python -c "from core.code_fingerprint import code_fingerprint; print(code_fingerprint()['code_hash'])"
5. python run_tests.py -q
6. python -c "import json; d=json.load(open('tests/fixtures/golden_decision.json')); print(sorted(d.keys())[:8])"
```

2. Diagnosis (sync had not delivered edits)

```
40. fc /b models\signal_router.py "Claude outputs\backup_pre_sweep_1_5\signal_router.py"
43. python -c "from core.code_fingerprint import EXCLUDED_DIR_NAMES; print(sorted(EXCLUDED_DIR_NAMES))"
44. findstr /C:"_finite_or_nan" models\signal_router.py
```

3. Items 1-5 apply scripts then commit 22afea2

```
56. notepad apply_sweep_1_5.py # Part A structure + bias_engine
57. python apply_sweep_1_5.py
60. notepad apply_sweep_1_5.py # Part B decision_model + panel
61. python apply_sweep_1_5.py
64. notepad apply_sweep_1_5.py # Part C signal_router defaults
69. python apply_sweep_1_5.py
76. notepad apply_sweep_1_5.py # fix @staticmethod on _optional_number
77. python apply_sweep_1_5.py
82. python run_tests.py -q
84. python run_tests.py golden
89. git add models\signal_router.py models\decision_model.py models\bias_engine.py structure\structure.py
core\panel_render.py
91. git commit -m "sweep items 1-5: remove invented defaults and fabricated readings"
```

4. Docs 1-5 commit 029c510 + cleanup

```
103. notepad update_phase7_next.py
104. python update_phase7_next.py
107. git commit -m "docs: record sweep items 1-5 closed at 22afea2"
94. del apply_sweep_1_5.py and all *.bak files
```

5. Items 6-8 commit 4d56f2a + docs e528475

```
122. notepad apply_sweep_6_8.py
123. python apply_sweep_6_8.py
127. python run_tests.py -q
129. python run_tests.py golden
133. git add indicators\indicators.py data\validation.py structure\structure.py models\exit_model.py test_live.py
tests\test_no_lookahead.py
134. git commit -m "sweep items 6-8: remove dead code, fix exit_watch NaN, repair test_live"
147. git commit -m "docs: record sweep items 6-8 closed at 4d56f2a"
```

6. Items 9-14 commit c3b0d43 + docs c56f969 (COMPLETE)

```
151. notepad apply_sweep_9_14.py
152. python apply_sweep_9_14.py
155. python run_tests.py -q
157. python run_tests.py golden
158. git add core\panel_render.py core\decision_contract.py core\engine_core.py core\decision_log.py
models\decision_model.py
160. git commit -m "sweep items 9-14: false statements and dual-write structural fix"
```

```
172. git commit -m "docs: fourteen-item sweep complete at c3b0d43"
```

```
174. git log -6 --oneline
```

7. Commit summary

Commit	Content
22afea2	Items 1-5 invented defaults
029c510	Docs 1-5
4d56f2a	Items 6-8 dead code
e528475	Docs 6-8
c3b0d43	Items 9-14 statements + structural
c56f969	Docs: sweep complete

Suite after each code commit: 345 passed / 0 failed / 29 errors. Golden: 8/8. Wrong turn: missing `@staticmethod` on `_optional_number` (fixed before 22afea2). Grok is not independent for re-audit of this code.
